

Ertech™ 2034

SELECTION & SPECIFICATION DATA

Non-fibered Asphalt Emulsion **Type**

A blend of selected mineral fillers and emulsified asphalts Description

that provides excellent protection against corrosion on

steel and other metal substrates.

 Water-based with low VOCs **Features**

· Very stable - no settling or separation

• Environmentally friendly

· Worker friendly NSF approved

· Underbody coating Uses

· Pipe and castings coating

General corrosion protection

· Moisture barrier

1.5 - 4 mils per coat

Black Color

Matte **Finish**

Primer Self-priming

Dry Film Thickness

(DFT)

41% by weight **Solids** 36% by volume Content

Maximum

300°F (149°C)

Dry

Temperature Resistance

Protect from freezing Limitations

Not for immersion service

SUBSTRATES & SURFACE PREPARATION

Substrate must be clean, dry and free of contaminants. ΑII

Previously Painted Surfaces

Consult with Armor Technical Service.

MIXING & THINNING

Mixing Not required

Generally not required. Product is thixotropic and will thin **Thinning**

under shear. If a reduction in static viscosity is desired, agitate to thin. The addition of water is not recommended for spray application. When applying by dip application, the addition of water is recommended to maintain a solids level

of 41% by weight in the dip tank.

Single component Ratio

Tools and hands should be cleaned with soap and water Cleanup

before the emulsion sets. Dried material can be cleaned with mineral spirits. Spray equipment should be flushed with soapy water then fresh water for short periods of non-use. For longer periods of non-use, a final flush using mineral

spirits is recommended.

APPLICATION GUIDANCE

Spray **Application** Ertech 2034 is designed for spray application using airless

equipment.

For best results under a wide variety of spray conditions, a 30:1 **Airless Spray**

or higher ratio pump is recommended.

Tip Size 0.019-inch orifice

Hose L/D 200 ft (max) x 3/8-inch diameter

Whip L/D 6 ft (max) x 1/4-inch diameter

Pump Packings

PTFE/UHMWP packings in the spray pump are

recommended.

Non-sagging up to 12 mils WFT on verticals. Film

Thickness

Brush/Roller Ertech 2034 can be brush or roller applied.

Ertech 2034 can be applied in dip tank. **Dip Tank**

Temperature Use in temperature of 50°F (10°C) or higher for best

performance.

Dry-To-Touch 30 minutes at 77°F (25°C). Dry times are decreased with air

movement over the coating.

24 - 48 hours at 77°F (25°C). Cure times are decreased with **Full Cure**

air movement over the coating.

0.2 lbs/gal maximum

PACKAGING, ESTIMATING & HANDLING

SAFETY

Shelf Life

Safety Mixes and applications of this product present a

number of hazards. Read and follow the hazard information, precautions and first aid directions on the individual product labels and safety data sheets

area at 75°F (24°C). Actual shelf life may vary with

storage conditions. Do not store below 50°F (10°C)

store product outside. Store indoors.

or above 110°F (43°C). Protect from freezing. Do not

before using.

Ventilation Use in well ventilated areas.

TYPICAL PHYSICAL PROPERTIES
